

10. OK, here I go (reprise)

OK, here I go, stepping out into the world
Time to live my life, time to take control, yeah!
Great, big world out there
For the taking.
Can I really have my share?
Oh, come on!

Mountain now to climb
Start ascending, it's my time,
Reaching for my dreams, stretching for the stars, yeah!

Tough times? – I don't care,
I can face it leaving all of this behind! Moving on!

Be brave, be strong, you knew this day would come.
It's time to find the person you've become:

The new me. Who is she? What does she want to be? And can she really fly?
The joy to use my wings again, and soar up where I want again
So free,
Be the brand new me!

Be brave, be strong, you knew this day would come.
It's time to find the person you've become
I brought life, I brought love, raising up, giving hope, and teaching her to fly!

OK, here I go, stepping out into the world
Time to live my life, time to take control, yeah!
Great, big world out there
For the taking,
And I'm gonna have my share.
Bring it on!

Oh, oh, oh, oh.
